HELPING BUSINESSES BUY BETTER

The Eagle Eye Legal Mail Monitor

Keep track of your DX costs in an easy, efficient and time-effective manner!

This standalone system connects via Wi-Fi so you can send a report in Microsoft Excel directly to your email address at the touch of a button. From a managerial perspective, using this system allows for accurate budgeting and more importantly an accurate DX subscription.

This all-in-one system is currently being used by barristers' chambers, and law firms throughout the UK – many of these have previously overpaid anywhere between 25 and 50%. Rather than estimating the yearly DX invoice it makes more sense to be able to confirm your actual usage of the service rather than relying on the limited information DX generally provides.

The Eagle Eye Legal Mail Monitor has touch screen simplicity that ensures complete accuracy with annual DX costs. Unlike previous systems, you can now monitor by size and weight and therefore ensure the accuracy of your DX subscription.

MAIN FEATURES:

- Designed by industry experts with over 25 years' experience.
- The market leading system that mirrors DX's size based pricing format.
- Simple, intuitive design means that clients can monitor their DX quickly and accurately.
- A large touch screen panel allows you to monitor with ease.
- The machine allows you to record items by time, date, weight, price and either individually or by entering a quantity for larger mailings.
- A separate parcel report confirms the weight of each item sent, the recipients DX number and the total cost of the transaction.
- Through our touch screen technology reports are sent to your inbox.
